CAMP NO LIMITS

THANK YOU

Thank you for your generosity and ongoing support!

Camp No Limits

Educate • Empower • Support

*Thank you for
your support!*

Camp No Limits 2016 was our best year yet! Over 1200 people, including campers, parents, siblings, and volunteers participated in our programs. Thanks to donors like you, we were able to provide partial to full scholarships to 81% of the families who attended.

One of our many success stories from camp this year is about Billy, a shy 17 year old, who recently became an above the knee amputee due to bone cancer. When Billy arrived at our Maryland camp, he was still using a crutch for balance with walking. Within hours of arriving, and seeing so many other amputees walking without assistance, Billy chose to stop using his crutch. With many young adult mentors, our camp prosthetists and physical therapists, Billy had emotional support and a safe environment to learn about being an amputee: including learning how to run again. And he did just that. Billy's confidence soared as he began running across the gym with a running blade for the first time! Billy stated at the end of camp, "After this weekend I now know for the first time since my diagnosis that everything is going to be just fine. I have found my new home with all of you!"
